

Blue Sparrow Education Consultant and Advocacy Group, LLC.

Goals & Objectives

Blue Sparrow Ed. Group specializes in educational consulting, coaching, and advocacy, dedicated to empowering families, schools, and related support systems. Our partnership with families is built on a foundation of openness, collaboration, and mutual understanding. Our primary objective is to promote a responsible work ethic and disseminate accurate, relevant educational knowledge. We focus on implementing interventions that are clear, measurable, and tailored to each student's unique needs. By doing so, we strive to foster an environment where every learner can thrive academically and personally.

Professional, Academic, and Ethical Principles

- **Professional Practice:** Blue Sparrow Ed. Group approaches every family partnership with professionalism, reliability, and respect. We are confident in our ability to provide clear guidance, maintain confidentiality, and collaborate effectively with families, educators, and support teams. We also recognize that navigating educational systems can feel overwhelming, so we work to ensure families feel heard, supported, and empowered throughout the process.
- **Academic Integrity:** We use accurate information, evidence-informed practices, and sound educational knowledge to support meaningful student progress. Our work is grounded in clear goals, measurable outcomes, and individualized recommendations that reflect each student's strengths, needs, and learning profile. We help families better understand educational options so they can make informed decisions with confidence.
- **Ethical Advocacy:** We advocate honesty, fairness, compassion, and respect for each student's dignity. Blue Sparrow is committed to promoting equitable access to appropriate educational support while maintaining transparency and professionalism in all recommendations. Our advocacy is student-centered, solution-focused, and guided by the goal of helping families pursue positive, meaningful outcomes.
- **Consultant & Advocacy Strategy:** Blue Sparrow supports families by reviewing and clarifying IEP and Section 504 information, behavioral plans, quantifiable progress data, accommodations, modifications, and specialized related services such as occupational therapy, physical therapy, speech services, and other supports. We work to ensure recommendations are accurate, clearly defined, and aligned with each student's needs. We also emphasize consistent implementation of accommodations and modifications within the Least Restrictive Environment (LRE), supporting each student's right to a Free Appropriate Public Education (FAPE).
